Dear Dr. McAllister

It was a pleasure meeting you in Long Beach at the Deuel conference this year. Finally I have seen the man behind the voice. I hope that we will have the opportunity to meet again soon in other conferences as well.

In mid-January, 1987, the 8th ANNUAL EUROPEAN CONFERENCE ON VASCULAR BIOLOGY will be held in Israel. The conference is organized annually by the EUROPEAN ARTERY CLUB (EAC), the major European organization of scientists that are interested in cardiac and vascular biology and disorders. The annual conferences of the EAC are international and include scientists from both East and West Europe as well as the U.S.A.

So far, an extremely warm response was received from all Scientists whom we approached which assures an interesting and productive conference. The main theme of the conference will be "The Molecular Basis of Atherogenesis" (see enclosed tentative program).

Knowing the interest the CTR has in this subject I would like to ask you to help sponsering this meeting.

The organising committee suggest a contribution that will enable to cover the expense of travel and lodging of couple of invited speakers from the States. I can assure you that contribution of any kind will be received gratefully and will be given proper aknowledgement in the conference Program. In addition, needless to say that CTR representation is welcome.

I hope that the response for this request will be positive.

Thank you for your efforts.

Sincerely yours,

Prof. Ishaiahu Shechter
for the international organising committee

Charlie
I would appreciate
$ 2,500 in my A.K. with you
Thanks
